

Ontario Early Years Mobile Program

The first six years of a child's life are so important!

As a parent, you are your child's most important teacher. The experiences children have in the first six years of life affect behaviour, learning and health for the rest of their lives. It is important to talk, listen and play with your child every day – it is never too early or too late to make a difference.

When you visit the program, you and your child can

- explore our fun play materials with your child---blocks, puppets, storybooks, puzzles, games, cars, trucks, dramatic play and much more
- meet and talk to with other parents and children in a fun, safe environment
- experiment with our creative art supplies
- participate in games and activities to help your child with learning ABCs and number skills and other school readiness skills.
- find out the answers to your parenting questions or learn about different resources in your community that can assist you and your child

Visit: <http://www.ymcaofniagara.org> OR call 905-938-9392 for more information.
